NEW

1.5" Snap Seam Panel

Panel Profile

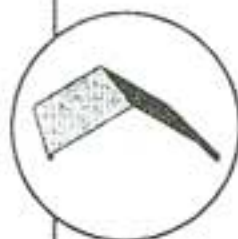

PANEL ADVANTAGES:

•Simple Installation

•Extra Strong "Snap" Joint

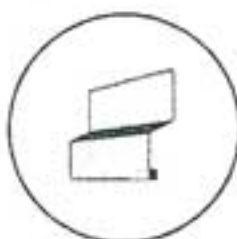

•Can Be Formed At Jobsite
(In Wichita Area)

Standard Roof Flashing Details

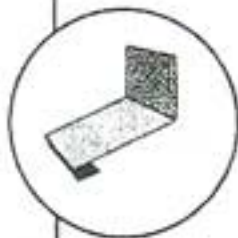

Ridge Cap

Protects panel ends from water penetration. Accepts expansion and contraction.

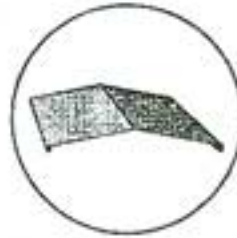

Side Wall Flashing

Side Wall transition, seals connection between siding and roofing

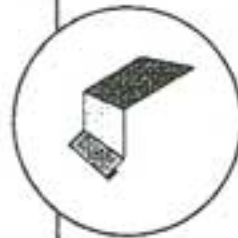

Head Wall Flashing

Roof to Wall applications.

Hip Cap

Protects panel ends from water penetration

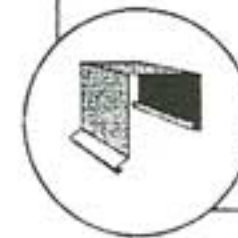

Standard Eave Trim

To protect roof edge and fascia board from water penetration.

Standard Valley

Standard transition flashing at a valley. "W" helps prevent water penetration at panel ends

Gable Trim

Covers panel ends. Protects roof from water penetration

MAXIMUM CLIP SPACING:

24 ga. 12" (3'-0")

NOTE: Oil canning is not a cause for rejection

**Any Size Custom Flashing Available!*

Pipe Crimping Plier

ID No.	Retail
PCP	\$15.88

Double Crimper
DPC \$42.50

For crimping ends of conductor pipe and vent pipe.
Should be in every tool box.

Price, ea.

Q & A

So often the question is asked of us,
*"What kind or what size gutter
 should I use?"*

The answer is that the Conductor Pipe is the main element in handling the water. Given enough outlets, a small Gutter can handle more water than a large Gutter with insufficient outlets.

The old rule-of-thumb on the question is for every 100 square feet of roof, allow one square inch of pipe capacity.

Example: A 20 ft. x 180 ft. roof contains 3600 square feet, calling for 36 inches total of pipe outlets as a minimum.
Or: At least 5-3 inch downspouts, 3-4 inch or 2-5 inch.

The following table of capacities may some day be of assistance:

Size and Type Conductor Pipe	Square Inches of Capacity Per Outlet	Roof Area Drainage Capacity Per Outlet
3" round	7.1	710 square feet
4" round	12.6	1260 square feet
5" round	19.6	1960 square feet
6" round	28.3	2830 square feet
7" round	38.5	3850 square feet
8" round	50.3	5030 square feet
3" square	7.7	770 square feet
4" square	11.7	1170 square feet
5" square	24.9	2490 square feet
